<p>2010-2011 ...Played in a back-up roll. Season stats: FG...40-99 (40%); 3 pt...28-63 (44%); FT...5-8 (62%). Can stroke the trey.</p> <p>November 17-19, 2011 ...Runs the team. Handles the ball very well. Does not have great speed to run the point. Shot the ball very poorly in the first game going 0-11 from the field (0-8 from three). Quick defenders can keep her from penetrating in that she just doesn't have blow-by quickness. Tough for her to defend on the perimeter. Have not seen much of an offensive game thus far. Her role is to run the team. Offensive game finally showed up in the 3rd game as she knocked down several treys. March 20-24, 2012 (National Tournament)...28 Game Stats: FG...104-287/36%; 3 pt...52-138/37%; FT...39-48/81%; 2.2 turnovers per game. Has a pretty good feel for the game. Shoots 36% from the field coming in, but went 5-25 in the tournament. From three she was hitting 37%, only hit 1 of 14 in three games. Turnovers were a problem in the first two games with 5 in one and 4 in the other. Speed and quickness is above average. Best role for her is running the team at the next level.</p>

<p>2010-2011 ...November 18, 2010...Has very good jumping ability. Slender wing who needs more upper body strength. Plays very good perimeter defense. Check the 6-0 listing. Has excellent speed and quickness. Really long. Stroke from 3 had solid form. Had a solid game against Trinity Valley going 7-11 from the field (15 points) while pulling down 7 rebounds. National Tournament...Season stats: FG...109-261 (41%); 3 pt...28-78 (35%); FT...Solid free throw form. Runs the floor well. Avery athletic. Goes to the boards, had 31 for the tournament. Shot only 33% (10-30) in the tournament.</p> <p>November 17-19, 2011 ...Very athletic. Wiry strong. Excellent jumping ability. Rebounds and blocks shots. Excellent speed and quickness. Will step out and hit the trey, but can put on the floor and take it to the rim. Good free throw form. Had 27 points the first game going 11-17 and 4-4 from the line. As good as she was the first night, she was almost that bad against Trinity Valley even though she had decent numbers (6-17 from the field and 2-3 from the line with 13 rebounds). Seemed very out of sync in this game. March 20-24, 2012 (National Tournament)...25 Game Stats: FG...147-452/32%; 3 pt...22-51/43%; FT...42-61/68%; 1.9 turnovers per game. Can play excellent defense on the perimeter. Went 9-23 in the tournament from the field. As of 5/7/12 unsigned.</p>

<p>2010-2011 ... November 18, 2010... Nice stroke from the perimeter. Speed and quickness is above average to good. Defense on the perimeter is weak due to lack of lateral quickness. National Tournament... Season stats: FG...84-260 (32%); 3 pt...64-195 (32%); FT...25-28 (89%). Cannot create her own shot due to lack of quickness and dribbling skills. Speed up and down is above average. Used primarily to shoot the trey and went 0-8 in the tournament.</p> <p>November 17-19, 2011... Speed and quickness is above average, but she can shoot it. Will drain the trey if you don't get out on her. If she gets rushed, she shoots it off balance. In first game went 5-12 from the field and hit 4-8 from three. In second game with defenders on her went 2-10 from the field and 2-6 from three. Lack of quicks makes it difficult to get out of the trap on the perimeter and she turned it over 6 times against the pressure. Did not see her create own shot, but showed nice drive and step back move to get her trey off. Had her projected at level 7 last year, but her ability to shoot will get her some level 6 looks. March 20-24, 2012 (National Tournament)... 28 Game Stats: FG...143-381/37%; 3 pt...80-208/38%; FT...58-67/86%; 1.9 turnovers per game. Just have to take a look at her because of her shooting ability. Can come off the pick with a quick release from three. If on balance, form from there is very good. Went 10-33 for the four games. From the field went 12-51. Averaged just over 3 turnovers per in each tournament game. Named to the All-Tournament Team.</p>

<p>PER COACH...</p> <p>March 20-24, 2012 (National Tournament)... 21 Game Stats: FG...22-45/48%; FT...1-7/16%. Needs more upper body strength but has wiry strength. Has excellent quickness and will go hard after the ball off the boards. Runs the floor very well. Offensive skills limited. See some streaks of possibility in this prospect. Had limited playing time except for the first game in which she had 6 points and 9 rebounds. Worth a look. Unsigned as of 5/6/12</p>

<p>2010-2011 ... November 18-20, 2010... Goes to the boards. Had 7 against Trinity Valley. National Tournament... Season stats: FG...56-158 (35%); 3 pt...0-0; FT...31-60 (51%). Has very good strength. Going to the boards is her forte. Averaged 9 in the 3 games. Not a great scoring threat. Will be recruited next year in that she is 6-3. To be more effective, must develop her offensive game. Runs the floor fine. Hands are decent.</p>

November 17-19, 2011...Big and strong. Gets good position on the post. Needs to tone and drop 5-10#. Has good free throw form. When she gets the ball on the low post, has quick and strong move to the basket. Runs the floor well. Capable of putting on ball on the floor and taking to the basket. Struggles running the floor. Went 3-6 from the field and 4-4 from the line. Lateral quickness is surprising. Very unproductive second night. Even though she was projected at level 7 last year, have projected level 5 but will watch third game to be more definitive. Has decent mobility for her size, and being 6-3 will get her a lot of looks. Tough for her to cover on the perimeter. For size, runs the floor pretty well. Will rebound it and take it right back up. **March 20-24, 2012 (National Tournament)**...26 Game Stats: FG...65-136/47%; FT...41-65/63%; 1.1 turnovers per game. Plays very hard. Has some deceiving quickness and loss of a few pounds could really help. Face-up jumper from 10' is solid. Creates big target inside by spreading out and getting big. Had a solid tournament going 13-28 from the field. Continued to struggle at the line going 13-23. Needs to be more aggressive on the boards. ***Will graduate next December from CAC and then look to transfer.***

PER COACH...*Good student 3.5 GPA. High IQ for the game, good shooter, very good passer and ball handler.*

2010-2011...

December 2, 2011...11.9 ppg on 60% shooting, 53% from three on 26 attempts. 5.4 rebounds and 3 assists per game. Has hit 17-20 from the line. Great looking shot from three and has excellent form. Long and athleticism is not bad. Works hard defensively. Runs the floor well. Has a good feel for the game. Excellent form on her free throw. Plays with some maturity. Really liked her game and will see again later. Has decent jumping ability. Speed and quickness is good. Had very good night against State Fair going 8-14 from the field on 4-7 from the three. **January 21, 2012**...Now averaging 13 ppg and 4.1 rebounds. FG...77-144/53.5%; 3 pt...32-76/42%; FT...35-42/83%; averaging almost 3 assists per game. Continues to impress as a very good prospect going with being a solid person and excellent student. Had 20 against a weak team, but hit 4-6 from three while getting 9 rebounds. **National Tournament**...32 Game Stats: FG...145-278/50%; 3 pt...54-143/37%; FT...69-79/87%; 1.5 turnovers per game. Selected first team All-Region. Named to the All-Tournament Team. Solid shooter with good form. Has good jumping ability. Ball-handling is okay but not as good as it needs to be. Went 18-35 from the field in the tournament which is right at her season percentage. From three was 8-22. Does a good job of being on balance when she shoots the ball. Plays primarily on the perimeter but gets 4-5 rebounds with good hustle. Committed more turnovers than normal in these four games. MM should take a look. ***Signed with Emporia State University (KS).***

<i>PER COACH...Good student, a good shooter, 37% from three. Long and lanky rebounder, 5.5 per game. Runs the floor very well. 4-type.</i>							
2010-2011... *October 23, 2010: Slender build. Athletic. Can run the floor. Only saw her limitedly, but have been told that she is a very good one. October 30, 2010... Has a solid stroke from 3. Mobility and lateral quickness is very good. November 13, 2010... Will need to get stronger to battle inside. Not a banger, but can step out and stroke the trey. March 4, 2011...							
December 2, 2011... 13.3 ppg and 7.8 rebounds. Hitting 51% from the field and has hit 22-30 from the line. Projected at level 5 as a freshman. Really shot poorly from the line going 1-7. Had 9 rebounds and only 7 points. Still could use upper body strength. Can step out and stroke the trey but doesn't do it often. Confidence as a sophomore could make her a solid level 5 and will probably get some MM looks before the year is out. Will see her again in second semester. January 21, 2012... Averaging 11.8 ppg and 7.5 rebounds; FG...76-149/51%; 3 pt...13-34/38%; FT...35-54/64.8%. Runs the floor very well. Doesn't play as hard as she needs to all of the time. Speed and quickness is very good. Very good athleticism and long. Size, athleticism, speed and quickness at this size will get her some MM looks. March 10, 2012... Has very good jumping ability. Has good athleticism and runs the floor very well. National Tournament... FG...133-277/48%; 3 pt...24-71/33%; FT...69-99/69%; 1.3 turnovers per game. Selected second team All-Region. Seems to be getting better. Shooting from the perimeter very well. Needs more strength to battle inside. Doesn't have quick feet to be able to execute moves inside effectively. Named to the All-Tournament Team. Did not have a good shooting tournament even though she was right at her average point wise. A lot of upside to this player and will get MM looks. Signed with American University.

2010-2011... *October 23, 2010: Can shoot it from beyond the arc. Has very good speed and quickness. *October 30, 2010...Leads the break under control and will pull-up and shoot the jumper if defense plugs the middle. Nice stroke from 3 and has nice soft touch. Has good strength. Has great quick first step to get herself open for the pull-up jumper. Excellent ball-handling skills. November 13, 2010... Seems to have a good feel or the game. Sees the floor and gets to the open player.

December 2, 2011...9.5 ppg on 46% shooting. Hitting only 18% from three (4-22). Dishing out 4.5 assists and has 23 steals after 8 games. Projected at level 3 as a freshman. Still believe she is one of the best point guards out there in JUCO play. Great ability to get to the rim. Very good jumping ability. **January 21, 2012**...Averaging 10.5 ppg and 2.4 rebounds; FG...70-146/47.9%; FT...23-35/65.7%; 3 pt...16-53/30%; in 17 games has given out 80 assists and turned it over 36 times and collected 55 steals. Has excellent explosive quickness and plays under control. Had 6 assist this game and went 5-8 from the field. **National Tournament**...31 Game Stats: FG...114-264/43%; 3 pt...24-100/24%; FT...37-61/60%; 1.7 turnovers per game. One of the better point guards in the JUCO ranks. May not be as flashy as some but is very sound. Did not shoot the ball real well but so many other aspects of her game make her a very nice prospect. Averaged 5 rebounds a game as a point guard. Had 18 assists and 12 turnovers. **Signed with University of San Diego.**

PER COACH...Coming of an ACL injury, strong, physical body. Can step out to 16-17'. Good rebounder.

2010-2011...Had ACL injury.

December 2, 2011...8.8 ppg and 5 rebounds. Hitting 44% from the field and 60% from the line (18-30). Long and lanky. Can run the floor. Face-up jumper from 15' has good form. Lateral quickness not great but should get better as her knee gets stronger. Could use more upper body strength. Has good jumping ability. Will get a better feel for what level at which she can play second semester. **January 21, 2012**...Averaging 7.8 ppg and 4.3 rebounds. FG...49-108/45.4%; FT...27-43/62.8%. Has quick move to the basket off the dribble. Has good hands. Saw more energy in her game than previously. Needs to do it consistently. Due to injury her freshman year, may return to play another year. **March 10, 2012**...Soft touch from the free throw line. Speed and quickness is good. Seems to be rounding into playing shape after recovering from the ACL injury. **National Tournament**...FG...90-209/43%; FT...62-88/70%. Contributed off the bench going 9-24 from the field. Saw her get better as the year progressed. Seems to have confidence in the knee at this point and is playing more confidently and aggressively. Very well may stay to play her sophomore year.

<i>2010-2011...October 23, 2010...Perimeter defense is weak. October 30, 2010...Ball-handling skills need work. Speed and quickness is above average to good. March 5, 2011...Has developed well as a freshman. Has very good strength. Excellent free throw form. Plays hard. Sees the floor and gets the ball to the open player.</i>							
<i>December 2, 2011...6.5 ppg and hitting 46% from the field. Speed and quickness is a little deceiving. Does a good job of distributing the ball to the open player for the assist. Is averaging almost 4 per game and had 6 against State Fair. Ball-handling skills need work in order to play at the higher levels. Has good strength. Not a great offensive threat and is averaging 6.6 ppg. Coming into this game was hitting 46% from the field. Will see again later. January 21, 2012...5.1 ppg and 2.6 rebounds; FG...34-82/41.5%; 3 pt...6-26/23%; 73 assists and 29 turnovers in 17 games. Has good strength. Saw her for only a half, but was very impressed. Mid-major for sure, and may be a HM player. October 30, 2010...Deep bruise injury but will play next week. Will see her again but am projecting as MM and maybe higher. *November 13, 2010...Will turn to her left shoulder and shoot the LH jumper. December 2, 2011...11 ppg and 6.9 rebounds. Hitting 47% from the field and 57% from the line (19-33). Saw her briefly earlier in a scrimmage, and did not play hard at all, but in this game saw a lot more effort. Played with some aggressiveness and ran the floor well. Has all of the tools to be a very good one, just needs to learn to play hard all the time. Came into this game averaging 11 ppg and 6.75 rebounds. Had 18 and 9 tonight. Connecting on 47% from the field and only 57% from the line. Has the tools to be an impact player at the MM level, and with consistent aggressive play could play at the HM level. **January 21, 2012**...11.6 ppg and 7.6 rebounds. FG...78-174/44.8%; FT...40-63/63.4%. Using her right hand better around the basket. Very athletic. Is not putting up the big numbers like she is capable, but has the ability to do so. Did have 14 rebounds. See spurts of intensity, but must learn to sustain it. **National Tournament**...FG...151-350/43%; 3 pt...5-13/38%; FT...73-116/62%; 1.9 turnovers per game. 2010-2011...October 28, 2010...Sound little point guard. Plays hard. Did not see much offensively. **November 29, 2010**...Speed and quickness is good. National Tournament...Season Stats: FG...18-47 (38%); 3 pt...1-7 (14%); FT...18-28 (64%).

November 12, 2011...Speed and quickness is above average to good. Has good free throw form but needs to work on full arm extension on her free throw. Left hand needs work dribbling. Doesn't have quickness to drive by her defender, but protects the ball when guarded closely. Does struggle with run and jump defenses because of size. Plays hard on perimeter defense. Plays hard but is so small. **February 2, 2012**...FG...30-79/38%; FT...18-29/62%; 3 pt...5-24/20%. Limited playing time in this game and very little production. **March 8, 2012**...FG...33-95/34%; 3 pt...7-32/21%; FT...18-29/62%. Turning it over 2.1 times per game. Has a hitch in her perimeter shot and is slow getting it off. In two games observed in tournament, was 1-4 in the first game and 3-10 in the championship game. Speed and quickness is above average and this will limit her at the next level. **Partial to Oklahoma Baptist but probably will just go to school at OU.**

November 12, 2011...Projected at level 8 her freshman year. Has virtually no knee bend in her shot but can drill it if given any space at all. Has solid body, but speed and quickness is still only above average to maybe good.. Did not shoot the ball well this game going 2-9 from the field on 2-7 from beyond the arc. What will get her some looks at the 6 level will be her ability to shoot it, and shoot it deep. **March 8, 2012**...FG...105-277/37%; 3 pt...74-203/36%; FT...50-63/79%. 2.6 turnovers per game. Will take it to the rim on occasions, but does not have the quickness to blow by defender any time she wants to. At the rim has virtually no elevation. In the two games observed in the tournament, went 5-17 from the field (2-11 from three). Had 4 and 3 in the turnover department. Have had her at level 6 but changing to 7/6? **Signed with Benedictine College (KS).**

2010-2011...October 28, 2010...Has the frame to get stronger and will need to. Can put on the floor and take to the basket. Free throw form is okay. Weak left hand on the dribble. Will need to learn to play tougher. November 22, 2010...Still need to see her play more to get a good read on her. Did score 13 against a good team (NEO (OK)). **November 29, 2010**...Dips her right shoulder on her perimeter shot, but seems to have it grooved. Will put on the foor and drive it to the rim. Speed and quickness is above average to good. Needs more upper body strength. National Tournament...Season stats: FG...84-199 (42%); 3 pt...30-94 (31%); FT...65-84 (77%). Holds the ball too far out in front of her face on her free throw. Slow getting her shot off. Quickness will make it difficult to go to a higher level. Can hit the trey if given time, and can do it from deep. Weak perimeter defense. Had a productive tournament scoring 51 points while shooting 11-25 from the field (5-12 from three).

November 12, 2011...Projected at level 7 her freshman year. Has been scoring a bunch here early in the season. Still shoots her shot out in the front of her and to the right side. Weak ball handling skills. Works hard on the boards even though she is not a great jumper. Quicker defenders bother her. Had 6 turnovers this game. **November 16, 2011**...FG...168-396/42%; 3 pt...69-158/43%; FT...99-115/86%; 3 turnovers per game. Needs more upper body strength. Will put it on the floor and take to the rim. Uses her left hand. Pressure tends to bother her. **March 8, 2012**...had a poor night shooting the ball going 5-17 from the field (1-9 from three) in the opening game. In the finals, only shot the ball 3 times and did not connect and had no points. **Named to the Region 2, All-Region 1st Team. November 1, 2011...Handles it with confidence and protects the ball well dribbling. Does not have very good quickness for a point guard but is pretty clever with the ball. Does good job of running the team. Speed and quickness will hurt her at the next level. Has nice stroke with very good form. Passing skills need work. Not a point that will make your fast break great, but her half court game is adequate. **February 10, 2012**...Averaging 4.3 ppg on 29-88 shooting from the field (32.9%). November 17-19, 2011...Has very good handles. Speed and quickness is excellent. Can shoot the trey with good form although she went 0-5 in the first game. Rebounded with a good game in second contest hitting 6-13 from the field along with 4 assists. Not sure she is 5-7, but she can go up and down. Has good strength for her size. Again, as she gains confidence in her knee, should become a MM prospect. **National Tournament**...Stats for the year: FG...90-228 (39%); 3 pt...22-73 (30%); FT...20-58 (34%). Great wing span. Seems to be running much better. Abbreviated knee bend part of the time on her free throw. Changing her to level 4. Had a productive tournament scoring 48 points. From the field went 19-46 and 7-16 from three. Has received the okay to come back for another season.

November 15, 2011...Needs upper body strength. Looked as though she had lost some weight. **January 6-7, 2012**...Averaging 11 ppg. Hitting 46% from the field on 53-113 shooting but shot poorly this game going 1-7. Plays hard. Sometimes looks a little disjointed but is effective. Stroke from three has good form. Really long. Has narrow shoulders which will make it hard to increase upper body strength. **National Tournament**...26 Game Stats: FG...123-279/44%; 3 pt...20-71/28%; FT...48-83/57%; 1.9 turnovers per game. When she posts up she has a really quick move to the basket and uses her left hand effectively. Was 12-27 from the field in the tournament.

PER COACH...

November 15, 2011...Oklahoma State transfer who sat out last year. Can nail the trey or catch the ball on the move and hit the pull-up jumper. Nice arch on her shot, but needs to keep the weight forward on her right side. Can put on the floor and take it to the basket. Handles are adequate. Speed and quickness is above average to good. Struggles running the floor. Will step out and take the charge. Went 8-14 from the field (4-5 from three) in game and 8-16 in game two. Also had 10 rebounds in second game. **January 6-7, 2012**...Averaging 20 ppg and 8.5 rebounds. Hitting 60% from the field (91-151) and 41% from three (17-41). Went 6-13 from the field and hit 2-5 from three. **February 25, 2012**...Would like to see her tone and lose 10# in that her speed would increase quickness as well. Did a decent job of covering on the perimeter. Very good offensive player. **National Tournament**...27 Game Stats: FG...168-314/53%; 3 pt...27-93/29%; 1.7 turnovers per game. Plays perimeter defense very well. Lateral quickness is very good. Named to the All-Tournament Team and also MVP of Tournament. Hit 7-17 from three and 25-37 from the line.

Signed with Central Missouri State University.

PER COACH...

2010-2011...November 6, 2010...Has very good strength. Struggles running the floor. Really quick jumper. December 30-31, 2010...Plays tough perimeter defense. Played very good post defense. Even though she is a little slow up and down, has surprising quickness. Strength of her game is going to the boards. National Tournament...Stats for the year: FG...33-78 (42%); 3 pt...0-0; FT...37-51 (73%).

November 15, 2011...Athletic and good strength. Went to the boards hard in game one getting 13. **January 6-7, 2012**...Averages 8.7 rebounds per game and rebounds strongly but only had 4 this game. Has very good strength. Runs the floor very well, but doesn't do it all the time. Plays good perimeter defense. **February 25, 2012**...Did not play due to disciplinary reasons. **National Tournament**...26 Game Stats: FG...51-102/50%; FT...38-79/48%; 1.2 turnovers per game. Plays hard all the time. Goes hard to the boards. Has really good length. Solid in the tournament going 6-9 from the field. A nice prospect that could be over-looked due to other talent on this team. **Signed with Lamar University.**

<p>2010-2011... November 6, 2010...Has excellent speed and quickness. Extremely athletic and great jumping ability. Can stroke the trey. Can put on the floor from the perimeter, take behind her back, between her legs, then drive it to the basket. Has good strength. Stroke from the line is solid. Can be a scoring machine. Sees the floor on her penetration and gets it to the open player. Has excellent hands. Very good ball-handling and passing skills. Transfer from Meridian Mississippi.</p> <p>November 18-20, 2010...Will need to be careful about forcing things and recognize when to make a move and when not to make one. Forced some shots and turned it over 4 times each half. Even shooting the ball poorly from three (1-6), she did hit 9-20 from the field for 19 points. In the finals, went 7-13 from the field and 2-4 from three. Turnovers are still a concern in that she turned it over 6 times in this last game. December 30-31, 2010...Tends to make her move before she gets the ball and takes steps. Has areas of her game that need to be improved upon, but one must come back to fact she is averaging 21.9 ppg and hitting 54% of her field goal attempts. Also is hitting 80% from the line and leads the team in steals with 38 going into this classic. National Tournament...Stats for the Year: FG...212-420 (50%); 3 pt...39-90 (43%); FT...68-85 (80%). Also gets 2.2 steals per game. Will turn it over, but she can score. Went 34-72 from the field and 88-20 from three. For the tournament she scored 83 points. Named NJCAA First Team All-American.</p> <p>November 15, 2011...Game is very much the same as it has been. Will look great one moment and then force something for no reason at all. Great talent, but must learn to play under control and let the game come to her. January 6-7, 2012...Averaging 17.8 ppg and 6.3 rebounds. Hitting 88-190 from the field (46%) and 43 % from three (14-32). Brings the ball hard on the break and is very effective pulling up and shooting the 15' with great elevation. Went 11-16 from the field and hit 3-4 from three. January 28, 2012...DNP due to disciplinary reasons. National Tournament...24 Game Stats: FG...182-395/46%; 3 pt...35-84/41%; FT...67-78/85%; 3.5 turnovers per game. Was named to the All-Tournament Team, averaging 14.8 ppg and 6.5 rebounds. No question she is a talent, but as stated earlier must discipline her game. Averaged 4 turnovers per game. Went 29-64 from the field. As earlier notes are reviewed there tends to be quite a lot of negative, but her positive far outweighs the downside. Signed with the University of Mississippi.</p>
