2020-2021 ... October 17 (CiscoCollege[TX]/FrankPhillips[TX]) ... Plays with a lot of aggressiveness. Goes after it on the boards with reckless abandon and outhustles others to the ball. Speed and quickness is good. Takes it hard to the basket and gets up on the release with her very good jumping ability. Very good court vision and gets the ball to open teammates and puts good snap on her passes. Okay free throw form. Strength is good. Plays hard all the time. Can shoot the three but not sure at this point how consistent she will be. Competitor. **April 7 (TylerJuniorCollege-TX) ...**

2020-2021 ... October 17 (CiscoCollege[TX]/FrankPhillips[TX]) ...Speed and quickness is average to above average. Plays hard. Could stand to tone and maybe lose 5-10 pounds. Will drive it to the basket if lane is there. Not a very good jumper.
January 29 (CiscoCollege-TX) ...Blue collar player who just plays hard. Not very skilled. **April 7 (TylerJuniorCollege-TX) ...**

2020-2021 ... October 17 (CiscoCollege[TX]/FrankPhillips[TX]) ...Transfer from Georgia Highlands College. Strength is good. Runs the floor well. Give her time and will hit the trey but needs to speed up her set-up and release. Did not hit the perimeter shot today with consistency, but has the form and if she can improve her consistency will be a significant threat. Seems to have a good feel for the game. Plays with good energy. Speed up and down the floor is above average. Quickness about the same. Her lack of speed and quickness will keep her from going to a higher level. More of a spot-up type of player and not one to create her own shot. Passing skills need to improve and needs to snap her passes and not float them. **April 7 (TylerJuniorCollege-TX) ...AS OF 06-02-21 HAS NOT MADE A DECISION AND IS AVAILABLE.**

2020-2021 ... October 17 (CiscoCollege[TX]/FrankPhillips[TX]) ...Very good strength. Undersized post player who posts up strong and has decent post moves but is carrying too much weight. Needs to drop 15 pounds to increase her mobility. Speed up and down the floor is hampered by carrying too much weight. Needs better rhythm on her free throw shot. **January 29 (CiscoCollege-TX) ...**Crashes the boards hard, and shows decent mobility even carrying the extra weight. **April 7 (TylerJuniorCollege-TX) ...**

2020-2021 ... October 17 (CiscoCollege[TX]/FrankPhillips[TX]) ...Transfer from Ouachita Baptist where she played her freshman year in the 18-19 season. Stats in blue reflect her time there. Averaged 6.5 ppg that year. Went 36 of 82 (47%) from three. Plays with some aggressiveness and plays hard. Very good free throw form. Has good basketball I.Q. Nice soft touch on her shot and form from three is good. Speed and quickness is above average to almost good, but to become a better prospect will need to exhibit a better ability to elude the quick defender when driving it to the rim. Lack of speed and quickness at her height will be a factor in going to a higher level. Needs to become a better ball-handler. **January 29 (JacksonvilleCollege-TX)** ...Does use picks well to get herself open for the 15-17' shot. Doesn't have great ability to create her own shot. **April 7 (TylerJuniorCollege-TX)** ...**SIGNED WITH SOUTHWESTERN ASSEMBLIES OF GOD.**

2020-2021 ... October 17 (CiscoCollege[TX]/FrankPhillips[TX]) ...Starts her three from too low but if given time can hit it. Would like to see her bring the ball up in the shooting pocket. Was streaky with her perimeter shooting this day. Slender guard who needs weight and more strength, particularly upper body strength. Has good handles with the ability to either direction on the dribble and passes it well. Very good body control taking it to the basket. Seems to have a good feel for the game. Speed and quickness is good. **April 7 (TylerJuniorCollege-TX)** ...

2020-2021 ... *October 17 (CiscoCollege[TX]/FrankPhillips[TX])* ...Really, really small point guard. Handles it pretty well. Doesn't have the great quickness to drive it by defenders. Height makes it very difficult to drive it and finish inside. Can shoot the trey. Lack of height will make it tough for her to project higher and not having great quickness at that size. **April 7
(TylerJuniorCollege-TX) ...**
