abov arm. defei into t	2023-2024February 14 (@CrowderCollege-MO) STARTEROkay frame, but needs more upper body strength. Lateral quickness is above average. Follow through goes off to the left or right, and not toward the rim on her three. Also needs more leg in her shot and not as much arm. Shooting percentage from three needs to improve. Quickness is above average. Lacks athleticism. Struggled against the full court pressure defense. Needs to put more zip on her passes. Very careless with her passing. Ball-handling skills need to get better. Has a tendency to dribble not the double team and then pick up her dribble. Adjustment to the more physical game at this level seems to be bother her some. Playing experience of another year will be beneficial to her game. # LAST First Ht Year Pos Hometown: (City, State) High School High School Level Level															as much pressure dribble

2022-2023...November 18-19 (ThreeRiversCommunityCollege-MO/MoberlyAreaCommunityCollege-MO) ...STARTER ...Big bodied post player who needs to tone and drop 15-20 pounds. Against the zone can face-up from 12' and hit the short jumper. Struggles running the floor most the time, but if pushed to run can surprisingly well. Shoots her free throw off the side of her face, rest of shot has good form with a soft touch. Needs to be stronger with the ball when she receives it on the low post. Questionable hands.Will need to do a better job of finishing inside on point blank shots.

2023-2024...February 14 (@CrowderCollege-MO) ...STARTER...Still needs to trim a few pounds. Has the strength to bull he way down on the low block. Did not see her face-up any from 12-15' which was observed previously. Shoots her free throw off the side of her face. Mobility is not bad even carrying the extra weight. Post defense is a little lazy.
