2023-2024...November 2/18 (RangerCollege-TX/SouthernArkansasUniversityTech) ...STARTER ...Small point guard who can harass the perimeter player. Not afraid to get on the floor defensively. Free throw form is okay. STARTER...Needs to get stronger and add some weight. November 27 (@RedlandsCommunityCollege-OK) ...CANCELLED January 15 (HowardCollege-TX) ...Will put up the three but is not very effective from there. Has only hit 20% of the 75 she has attempted so far this season. Gets after it but size will be an issue playing at the next level. Averages 3 steals a game. February 19 (SouthPlainsCollege-TX) ...Plays hard. Uptempo game and taking it to the basket hard enables her to get to the line and is shooting 80% from the charity stripe. Went 11-11 in this game. Becoming a better shooter from three would enhance her game a lot.																						
2024-2025...November 21-22 (CoastalBend-TX/WeatherfordCollege-TX) ...STARTER. Projected as a freshman at level 7/6?. Through 19 games, averaging 15.9 ppg. January 20 (FrankPhillipsCollege-TX) ...Size will make it difficult for her to project and play at the higher levels. Came into this game averaging 15 plus points per game, but only had 4 in this contest. January 30/February 3 (MidlandCollege-TX/ NewMexicoJuniorCollege) ...STARTER...Has shot the ball much better as a sophomore and is converting over 45% from the field, including from three with 104 attempts. Did not shoot the ball well in Midland game but did score 15. Quickness and speed is very good, and has the lateral quickness to cover on the perimeter. When defended closely in the New Mexico game, was not able to put up the uncontested shot and lack of ability to create her own shot cut down on her effectiveness offensively. Size will limit projecting higher.

2023-2024...January 15 (HowardCollege-TX) ...Lefty who has a lot of right hand in her shot, but has it grooved. Has put up 66 from three and has hit 42%. Can shoot it from deep. Speed is deceptively good as is her quickness. Will put on the floor and drive it but wasn't effective doing it. February 19 (SouthPlainsCollege-TX) ...STARTER...Needs to get stronger and add a little weight. Had previously seen some things from her that warranted a second look, but saw very little out of her in this game. Most of her offense has come from three (107 of 155 attempts), and needs to become more effective by developing her mid-range game and driving it to the rim.																						
2024-2025...November 21-22 (CoastalBend-TX/WeatherfordCollege-TX) ...STARTER. Through 19 games is averaging 14.4 ppg. Projected at level 7 as a freshman. January 20 (FrankPhillipsCollege-TX) ...Lefty shooter with quick release. Coming into this game has put up 146 from three and hitting 54%. Converted 5 of 10 in this game. Shooting ability will get her looks from level 4. Not one to put on the floor and drive it very often. January 30/February 3 (MidlandCollege-TX/NewMexicoJuniorCollege) ...STARTER...Has only been to the free throw line 17 times in 22 games due to she is primarily a catching and shoot player. Rarely puts on the floor and drives it, and really doesn't have the ball-handling skills or quickness to put on the floor and create her own shot. To project higher, will need to become more of a 3 level player. When she is defended closely on the perimeter making it difficult to get her shot off, her effectiveness is lessened. She will get some 5 looks based on her shooting ability, as she is hitting over 50% from three while putting up 160 from beyond the arc to this point. Inability to create offensively or get her perimeter shot off was evidenced very clearly in the New Mexico game going 0-5 from the field and only getting off 3 shots from beyond the arc.

2024-2025...November 21-22 (CoastalBend-TX/WeatherfordCollege-TX) ...No stats from Eastern Oklahoma. Strength is good. Plays good perimeter defense with some aggressiveness. Handles it well against moderate pressure. January 20 (FrankPhillipsCollege-TX) ...Came off the bench and contributed going 4-8 from the field. Struggled handling the ball against the trapping defense and getting herself free of the pressure. January 30/February 3 (MidlandCollege-TX/NewMexicoJuniorCollege) ...More of a driver and will get to the line as a result. Speed and quickness is good, but point guard quickness is questionable. Needs to tone and trim a few pounds. Strength is good. Has some aggressiveness to her game. For the year has only attempted 22 shots from the beyond the arc, and again in the New Mexico game pushed it to the rim off the drive. Got to the line and hit 7-8.

2024-2025...November 21-22 (CoastalBend-TX/WeatherfordCollege-TX) ...Averaging 7 rebounds per game through 19 games. Face-up jumper needs form work. Shoots too much off the side of her face. Average speed running the floor. Frame is good. Not very athletic and moves are somewhat awkward. Doesn't post up strong. Stands and holds her hand up rather than moving her feet and bending her knees and getting big. January 20 (FrankPhillipsCollege-TX) ...STARTER. Floor speed is above average. Length is good. Size will get her some level 7 attention. Takes her left hand off the ball and shoots her free throw one-handed. January 30/February 3 (MidlandCollege-TX/NewMexicoJuniorCollege) ...STARTER...Has not shown the ability to be an effective scorer. Frame is good and appears to have good strength. Limited athleticism. Board work is the strength of her game and has not proven to be an effective offensive player.

2024-2025...November 21-22 (CoastalBend-TX/WeatherfordCollege-TX) ...Runs the floor well. Jumps quickly. Free throw form needs work. January 20 (FrankPhillipsCollege-TX) ...Raw, needs another year of experience. Post defense is weak. January 30/February 3 (MidlandCollege-TX/NewMexicoJuniorCollege) ...Came off the bench and was a contributor with 8 points and 6 rebounds. Length is good. More upper body strength would benefit her in that she gets bumped around too easily inside. Has good upside. Size will get her the attention. Plays a little awkwardly at times, but finishes okay down on the low block. Struggled defending the skilled bigger player. Runs the floor with good speed. Did not see a lot of offensive skills displayed in either game.

2023-2024...January 15 (HowardCollege-TX) ...Stroke from three has very good form. Needs to tone and firm up. Tries to play aggressively on defense but tend to make silly fouls. Quickness is above average as is her floor speed. February 19 (SouthPlainsCollege-TX) ...STARTER...Can catch on the move and go up for her shot very quickly. Tends to travel as she sets up to shoot her shot from beyond the arc. March 7 (NewMexicoJuniorCollege) ...Had her feet set in this game and hit the three better and was on balance. Free throw form is good.																					
2024-2025...November 21-22 (CoastalBend-TX/WeatherfordCollege-TX) ...STARTER. Through 19 games is averaging 13.4 ppg. Projected at level 6 as a freshman. Plays defense too straight up and down. Nice stroke from three. Needs more upper body strength. January 20 (FrankPhillipsCollege-TX) ... Nice form from three. Needs more upper body strength. Had solid game, but need to see her when she is pressured. Doesn't have good dribbling skills nor the quickness to create her own shot. January 30/February 3 (MidlandCollege-TX/ NewMexicoJuniorCollege) ...STARTER... Did not play well in Clarendon game. Quickness is above average to good. Nice form on her shot from three. If able to catch and shoot and not pressured, can be effective offensively. She has attempted 198 field goals with 134 of them being from three. If guarded closely, her production level goes down without the ability to create her own shot and create at mid-range or take to the basket.

2024-2025...November 21-22 (CoastalBend-TX/WeatherfordCollege-TX) ...STARTER. Through 19 games is averaging 15.3 ppg along with 8.9 rebounds. Very slender and needs weight and strength. Very quick first step and explosive to the rim off the dribble. Needs to develop a quicker release. Excellent floor speed. January 20 (FrankPhillipsCollege-TX) ... Still needs weight and strength. Free throw form is good. Nice form on her free throw. Has a sneaky, slithering way of getting to the rim, but needs to develop her left hand on the dribble. Quickness is good. Has the athleticism to react to the ball off the boards and rebound out of her space. Additional strength could make her a very solid prospect. Tends to dribble into trouble. Has a tendency to try to do too much and as a result forces drives and shots. January 30/February 3 (MidlandCollege-TX/NewMexicoJuniorCollege) ...STARTER... Verses Midland, was very effective at all 3 levels and created her own shots from three, off the dribble jumpers, and taking to the rim. Defenders were unable to match her speed and quickness. Very athletic and jumps very well. Wound up with 34 points and 10 rebounds. Verses New Mexico, she was defended by as quick or quicker defenders and production was neutralized. Went to the line 10 times and hit 8, but from the field was 1-7 for the night.

2024-2025...November 21-22 (CoastalBend-TX/WeatherfordCollege-TX) ... Nice frame. Length is good. Face-up from 15' not bad. Floor speed is good to very good but needs to push herself every time. Post moves need to be developed. Very good strength. Plays with some aggressiveness, tends to be over aggressive defending the shot. Jumps very well. Post shot needs to be developed and with a softer touch. Needs to get better position on her post defense. January 20 (FrankPhillipsCollege-TX) ... Did not have much production in this game. Runs the floor well. Very good length. January 30/February 3 (MidlandCollege-TX/NewMexicoJuniorCollege) ... Showed a lot of upside in this game. Rebounded with some authority, and size and strength made her a force inside. Additional playing time should make her a player to watch. Lack of experience became evident in the New Mexico game going up against defenders her size and with equal athleticism. Over-all game needs to be developed.
